## Events & Opportunities

### Orca Recovery Day - Family Fun For the Whole Pod!

**Saturday, October 18th**

**Multiple Locations Throughout Pierce County**

**9:00 AM - 12:00 PM**

You, your friends and your loved ones are welcome at one of several restoration events throughout the county to help the endangered Southern Resident Orca population! More stewards means more salmon, and more salmon means more orcas. Families welcome at all sights!

**Whittier Park, Fircrest, 9am-12pm** - Family friendly activities like painting and educational tables, and tree planting.

**Trafton Slope, Tacoma, 9am-12pm** - Care for existing plants and remove invasive plant species to improve water quality for salmon.

**DeCoursey Park & Peck Property, Puyallup, 9am-12pm** - Care for existing plants and remove invasive plant species. Right along a salmon-bearing stream.

**South Prairie Creek Preserve, Orting, 9am-12pm** - Planting trees and shrubs to enhance salmon habitat. Optional bird walk with an expert at 8 am, as well!

**Metro Parks Tacoma, All Things Fun Sports, and EarthCorps** are also offering volunteer opportunities at Titlow Park and Tahoma Salt Marsh. You can learn more about these partner events on the Better Ground website.

### Farm Foundations Applications Open

**Applications Open October 1**

**Priority Deadline November 15**

If you're interested in learning how to grow your own food, work on a small vegetable farm, or expand your skills in food production Harvest Pierce County offers our Farm Foundations Training. This free adult educational program is designed to give access to the knowledge and experience of a full-time farm internship without the commitment. It combines virtual classes with field work, at farms within Pierce County, to give participants a well-rounded perspective on the realities of food production. Applications open October 1st and the priority deadline is November 15th. Please join us for the 2026 season.

### Green Tacoma Day

**9:00 AM - 12:00 PM**

**Saturday, October 11**

**Tacoma**

Green Tacoma Day, hosted by the Green Tacoma Partnership, is an annual day of service where volunteers come together at various sites to participate in tree plantings, hands-on restoration, exploring local green spaces, and engaging family-friendly learning activities. Whether you're a seasoned volunteer or it's your first-time, you're invited to take part in activities that help protect and restore the natural areas in your neighborhood. Participants of all ages are welcome to join in individual actions or group efforts to care for Tacoma's environment.

## Rural Energy for America (REAP) Webinar

12:00 PM -  
Thursday, October 23  
Virtual, Zoom

Pierce Conservation District is hosting a free webinar for **solar and energy contractors** on the current state of the USDA Rural Energy for America Program (REAP). USDA REAP grants provide funding for agricultural producers and rural small businesses to implement renewable energy systems or make energy efficiency upgrades-- up to 25% of a total eligible project cost and our team can help support your clients with technical assistance to apply totally free of charge!

Topics will include:

- New USDA requirements
- How your clients can secure federal funding to reduce energy operating costs
- The details of the REAP program, including eligibility and technical requirements
- Current cost share amount and percentages
- How our organizations can help your clients secure federal funding to reduce energy operating costs
- Answers to common questions we receive from clients

## Green Puyallup Day

9:00 AM - 12:00 PM  
November 1  
Puyallup

The Green Puyallup Partnership invites you to spend a day restoring green spaces in Puyallup! Through this partnership we work with local communities to recruit, train and support volunteer stewards to lead forest restoration projects in priority parks. Spend Green Puyallup Day at one of our habitat restoration sites in Puyallup. Activities include installing native plants, caring for existing plants, and removing invasive species such as Himalayan blackberry and thistle. This work supports water quality, our local wildlife, and pollinators.

## PCD Native Plant Preorder Sale is Almost Here

Pre-orders Open November 1

Let the Native Plant Sale countdown begin! We are only one month away from the launch of the 2026 Native Plant Pre-Sale. Now is the time to research and plan what additions you need in your yard/property. Whether it is to beautify your yard, restore a habitat, conserve water, or bring in our stunning native pollinators, we will have what you need. While we wait for the launch visit the website for more information about the sale and plant pick-up window

## Use the PCD Seed Library

Year-Round

One powerful way to ensure that our food systems are resilient and sustainable is through the practice of seed saving. Seed saving is more than just a method of gardening, it's a way to take control of our food sources, creating hyperlocal varieties that are uniquely adapted to the conditions of our region. Consider contributing saved seeds to local seed libraries, such as the one hosted by PCD at the Farm at Franklin Pierce Schools. Seed libraries are invaluable community resources, offering free access to seeds that are well-suited to our region. By donating seeds you've saved, you help build a stronger, more resilient local food system that benefits everyone in the community.
