

Salmon Program

Dream Stream ° Salmon Survivors ° Salmon Scents

Summary: We explore salmon and their habitat, their importance in the food web, and the impacts they face in our local watersheds

- **Dream Stream**

After reading *Salmon Stream*, students create an ideal habitat for salmon and the features they need during their life stages.

- **Salmon Survivors**

Students play the role of salmon and use beans to represent how many are lost as salmon encounter obstacles.

- **Salmon Scents**

Students navigate a river system using their sense of smell as salmon would, and consider the effects of pollution.

Extensions within the program:

Stuff a Fish art activity

Salmon Olympics field activity

Web of Life activity

Hatchery field trip
